Best results can only be achieved if you use the yarn recommended. When you buy your yarn, it is best to buy the full amount at one time to avoid variations in dyes.

Two No. 12 and two No. 11 BEEHIVE of MILWARD DISC needles. 2 stitch-holders. 2 yards (182 cm) narrow ribbon and 4 buttons for Coat. ½ yard (46 cm) narrow ribbon each for Mitts and Bootees.

How to check your tension

Before you knit this design check your tension carefully.

Take a pair of No. 11 needles, cast on 15 sts. and work in stocking stitch—1 row knit; 1 row purl—for 19 rows.

Cast off; press lightly on wrong side. The tension should be 15 sts. and 19 rows over 2 in. (5 cm) and the finished square should measure 2 in. (5 cm) each way.

If the square is bigger your work is too loose; try a size finer needle. If it is smaller your work is too tight; try a size larger needle.

If you knit to the correct tension in stocking stitch, you will knit naturally to the correct tension for any stitch in this booklet.

If you alter the needles to obtain the correct tension in stocking stitch, corresponding alterations must be made to the needles throughout.

These garments have been specially

Needle sizes quoted throughout this booklet are UK: equivalent Metric sizes are Nos. 2½ mm for 12 and 3 mm for 11.

designed for the size given and it is regretted that no adaptations are available.
